

TrialHub

Local access to tomorrow's treatments, today

What we do

We provide expert, hub-and-spoke-style support to help regional and outer metro hospitals deliver clinical trials to their local communities.

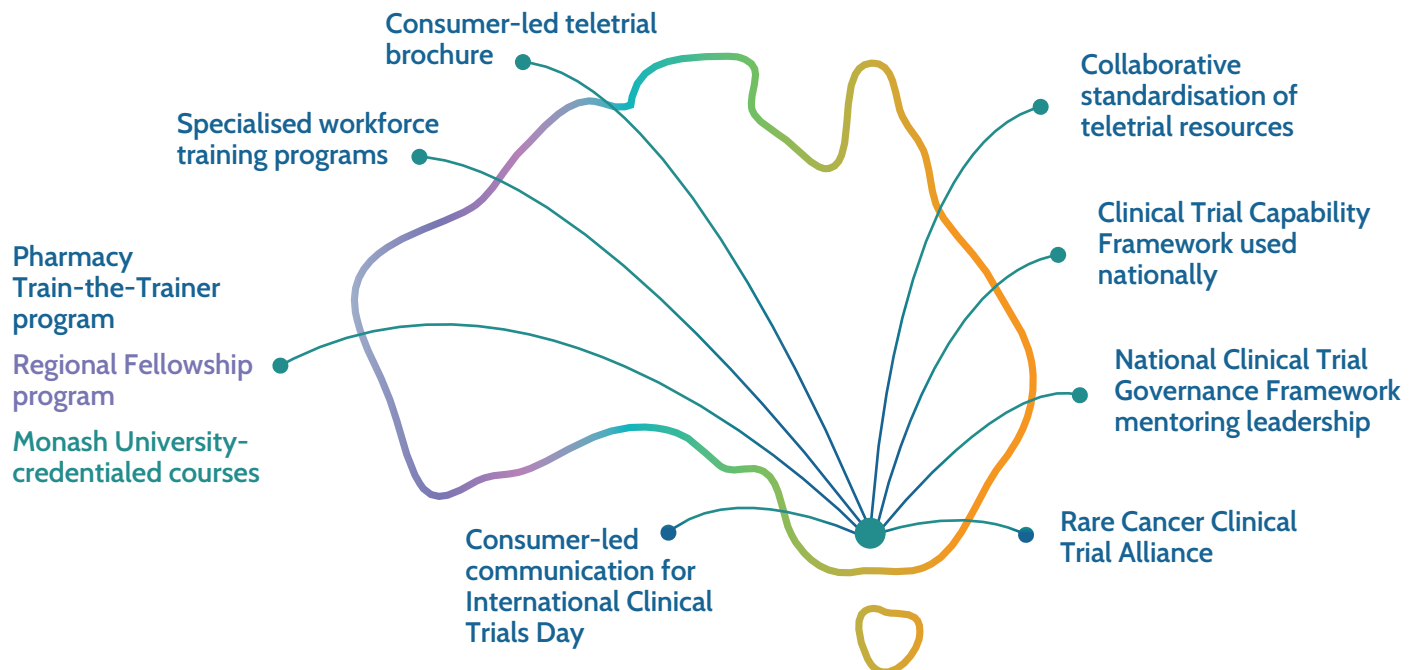

Our mission

That regional, rural and outer metro patients have local access to clinical trials.

The TrialHub approach

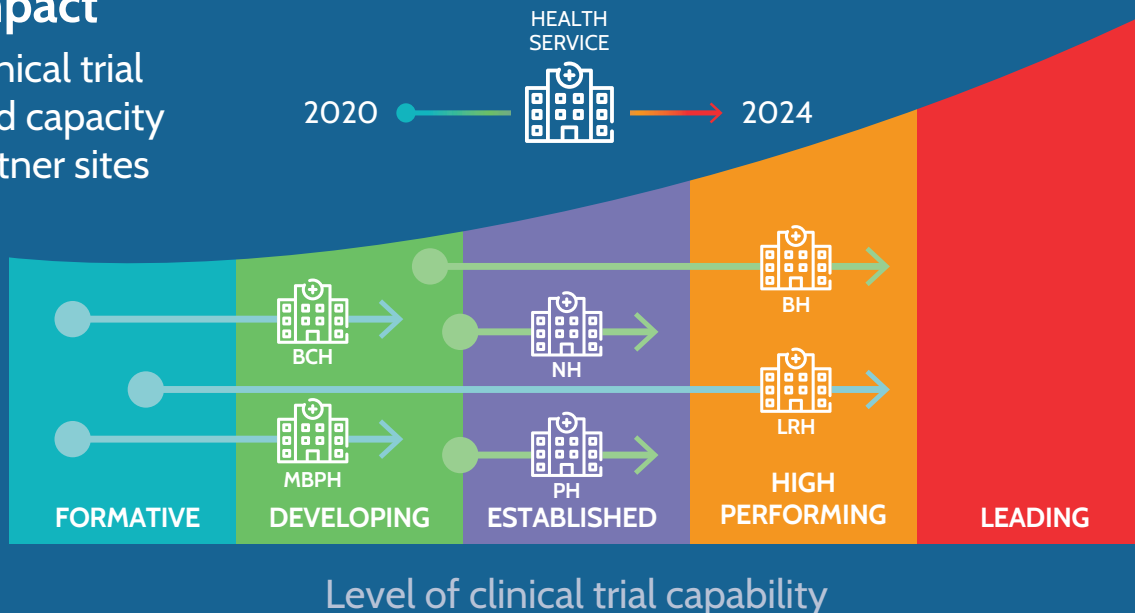

National impacts

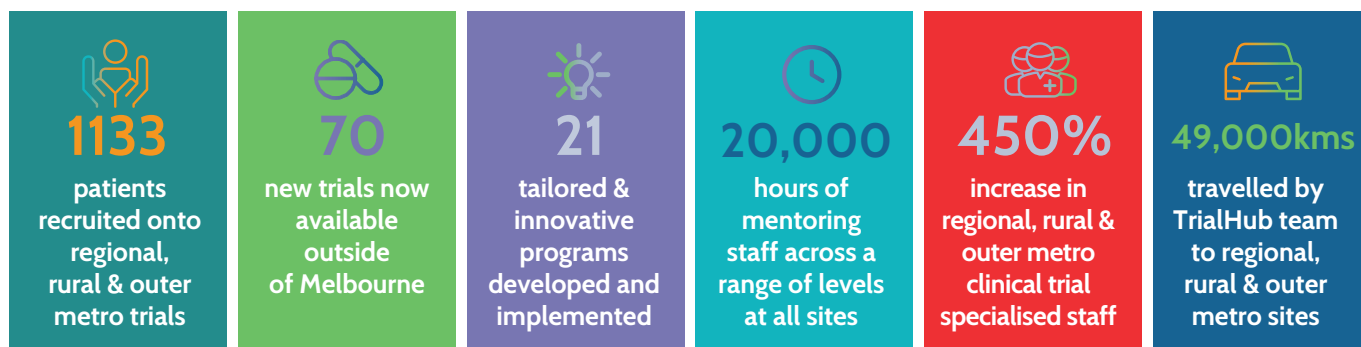

Proven impact

Growth in clinical trial capability and capacity at our six partner sites

Partner sites: BCH Bass Coast Health, BH Bendigo Health, LRH Latrobe Regional Health, MBPH Mildura Base Public Hospital, NH Northern Health, PH Peninsula Health

TrialHub's Direct Impact

Consumer Impact

'The fact that I can now have expert treatment & participate in a clinical trial in a regional area is a huge step forward.'

Regional clinical trial participant

'The team that manage me are incredible... I am extremely grateful for having access to the trial.'

Regional clinical trial participant

TrialHub beyond 2025

Australian communities deserve access to cutting-edge treatments regardless of where they live.

TrialHub's hub-and-spoke approach - Embed, Assess, Support, Link, Promote - has been proven to work.

Continued investment in TrialHub beyond 2025 will deliver more clinical trials and the latest treatments to more Australians, saving and improving lives in a sustainable way.

TrialHub Because your postcode shouldn't prevent you from accessing clinical trials.
